## **⚠ WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement or convulsion.
- altered vision
- loss of awareness
- seizures

### **RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.**

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

### **NOTICE:**

Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

### **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

### **HANDLING YOUR PS3™ FORMAT DISC:**

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## GETTING STARTED

### PLAYSTATION®3 SYSTEM

**Starting a game:** Before use, carefully read the instructions supplied with the PS3™ computer entertainment system. The documentation contains information on setting up and using your system as well as important safety information.

Check that the MAIN POWER switch (located on the system rear) is turned on. Insert the **RAGE** disc with the label facing up into the disc slot. Select the icon for the software title under [Game] in the PS3™ system's home menu, and then press the **X** button. Refer to this manual for information on using the software.

**Quitting a game:** During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select "Quit Game" from the screen that is displayed.

#### HINT

To remove a disc, touch the eject button after quitting the game.

**Trophies:** Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

### SAVED DATA FOR PS3™ FORMAT SOFTWARE

Saved data for PS3™ format software is saved on the system's hard disk. The data is displayed under "Saved Game Utility" in the Game menu.

The first time you insert RAGE into your PlayStation®3 system there is a one-time install process that will take 15 minutes. Do not turn off the console during this process.

As soon as you launch RAGE, select Campaign and then New Game to start a new game.

### SELECT YOUR DIFFICULTY

Difficulty determines not only how much health you have and how much damage your enemies inflict, but it also affects their behavior. Higher difficulty also means tougher races with craftier opponents. Choose wisely !

## MENU

Upon launching RAGE you'll be brought to the main menu where you can access the following options:

**CAMPAIGN** - allows you to start a new game, continue an existing game, or load from a previously saved game.

**MULTIPLAYER** - Play competitively or cooperatively with other people locally or over the Internet. See page 16 for more information.

**SETTINGS** - Configure the game's audio, video, controls, and gameplay options. See page 15 for more information.

**CREDITS** - View the people who worked on RAGE.

While holding down the fire button to cook grenades, a small bar will appear underneath the crosshair indicating when it will explode.
- 8 Defibrillator Charges** - These bars indicate how full your defibrillator charges are. When you become incapacitated during RAGE you'll be able to revive yourself. However, the defibrillator takes time to recharge so be aware if you don't have enough charge before entering a fight. If you die before it is fully charged, you will die and must load a save game.

## DOSSIER

The Dossier gives you access to all of the items, statistics, and progress you've made in RAGE, as well as allowing you to engineer items that will help you make your way through the game. Press the **SELECT** button to open the Dossier while in-game. Once opened, you can cycle through the various menus by pressing **R1** or **L1**.

## INVENTORY

The inventory contains a list of all the items and ingredients you're carrying as well as descriptions of what they are. You can use items here as well as assign Quickuse Items to the slots assigned to each direction on the **Directional buttons**.

You'll notice that items have different icons next to them that tell what purpose they serve. Here is a quick guide for identifying what does what:

### Exclamation Point

Special items that serve a unique purpose

### Hand

A Quickuse item, can be mapped to the Quickuse Item Select Menu for fast implementation

### Gear

An ingredient, can be combined with other ingredients to create usable items [see section on Engineering for more details]

### Dollar sign

This indicates that the item has no significant use other than to be sold for cash at a vendor

## ENGINEERING

Here you can construct any item that you have the recipe and ingredients for. Both recipes and ingredients can be found throughout the Wasteland and at vendors in the various towns. If you are missing an ingredient you'll need to find it somewhere or purchase it from a vendor. If an engineering item you've constructed becomes damaged, you can salvage some parts from it instead of having to abandon it completely. For each ingredient you see the number of that item required by the recipe, followed by the number of that item you have in your inventory.

## ARMORY

Here you can access all of the weapons and ammunition you're carrying as well as reassign which weapons are in quick slots in the quick-switch menu.

## JOBS

On the Jobs page you can see what missions you've completed, which missions are active, and what objectives are remaining to complete your active jobs.

You can use **L3** to scroll up and down the left pane and read the full description of the job and its objectives.

You can use **R3** to scroll through all of the jobs you've completed and have active. Grayed out jobs have been completed, and bold ones are available. Press the **X** button to set an available mission to active when it's highlighted.

## STATISTICS

This page will show various stats that that you've accumulated so far in the game. These include simple statistics such as enemies killed, as well as showing health and armor upgrades you've acquired in the game.

This will also help you track your progress towards certain TROPHIES in RAGE.

## ARSENAL

Throughout RAGE you will come across several weapons to use against your enemies in the Wasteland. Most weapons also have different ammo types and some upgrades that will be more effective against certain enemy types. Here's a sampling of what you'll find...

### Settler Pistol

This standard Wasteland weapon will get you started, but not much further. Later on you'll come across improved ammo for this weapon that is far more powerful.

### Settler Assault Rifle

This automatic rifle has a high rate of fire, but is fairly inaccurate and doesn't do a whole lot of damage. See vendors in the Wasteland for alternate ammo types and upgrades.

### Combat Shotgun

The Shotgun has a lot more oomph than most weapons and is excellent at taking down enemies at close range.

### Striker Crossbow

The Crossbow was made with stealth, damage and accuracy in mind. Use this to take out enemies while they're unaware.

### Fatboys (Pistol)

These unique pistol bullets are twice as large and pack twice the punch of your standard bullet, but also fit half the number of rounds.

### Fat Mamas (Pistol)

Twice as powerful as the Fatboy bullets, if these pistol super slugs can't get the job done, you're in trouble!

### Feltrite AR Rounds (Assault Rifle)

Assault Rifle rounds infused with Feltrite, this special ammo is perfect for use on armored enemies when steel rounds won't cut it.

### Pulse Shot (Shotgun)

What happens when you cross a shotgun shell with an EMP? You get the Pulse Shot; ammo perfect for taking out mechanized threats.

### Pop Rockets (Shotgun)

Shotgun ammo with more than just a little extra "pop", these rounds have the explosive power of mini hand grenades.

### Electro Bolts (Crossbow)

Crossbow bolts with an electric charge attached, shoot them into puddles of water or groups of enemies for added effect.

### Mind Control Bolts (Crossbow)

Fire these bolts into enemies to turn them into walking time bombs that you control.

## QUICKUSE ITEMS

The items below accompany the weapons available to you throughout RAGE. Many of these can be purchased or built using ingredients from vendors throughout the game. Many of these can also be found as pickups in the Wasteland. Quickuse items serve a number of purposes, from healing to attacking to supporting your character.

Survival in RAGE depends on effective use of your Quickuse items. Knowing what to use and when to use it can mean the difference between victory and defeat. Select your Quickuse items with the **↑, ↓, ← and → buttons** on the **Directional buttons** and use them by pressing **L2**.

### Bandages

Use these to instantly heal yourself if you find yourself low on health during combat.

### Wingsticks

These boomerang-like weapons are excellent at decapitating the weaker enemies that you encounter. They're still effective against stronger enemies, but don't expect to take them down in one hit. Upgrade these to Advanced Wingsticks later in the game to have them target multiple enemies at once.

### Lockgrinders

These handy little tools will get you through certain locked doors scattered throughout the Wasteland. Make sure to keep a few on hand as there are valuable items behind these doors.

### HE (High Explosive) Grenades

These weapons cause massive damage to any enemy unlucky enough to be within its radius.

### Sentry Turret

These turrets will fire at anything within range. Setting up a couple when being attacked by mutants will make taking them out much easier.

### Sentry Bot

These AI controlled turrets will seek out your enemies, crawling over obstacles and even stabbing them with their feet if they're close enough.

### RC Bomb Car

The RC Bomb Car controls like any other vehicle but can be used to detonate near enemies while you remain safely behind.

## VENDORS, JUNK, AMMO AND YOU

As you explore the world of RAGE make sure to grab any junk you happen to run across and then sell it to vendors when you find yourself in a town again. While you're there, make sure to buy all the ammo you need - you'll find some littered about the wasteland but you should always be prepared! Also keep your eye on the vendors' inventory for other nifty weapons and items that you can use when you find yourself in the next battle.
